**Streamlining Available Housing & Stability Resources for
Communities**

Community Allies helps businesses, schools, and governments do their part together to build and sustain inclusive change-making communities. Our mission is to support collaboration across sectors that focuses on replenishing sustainable resources with communities affected by redlining, displacement, and other forms of housing discrimination. Housing discrimination has been the bedrock of the segregation of people and resources and has contributed to race and class inequalities. Our regional housing legacies have also contributed to community housing costs which place quality homes out of reach for many people in our community. In St. Louis, many are coming together to secure quality and accessible homes for all in our St. Louis region. The community development organizations on this list are supporting local and regional affordable living. As we support them, we help build a regional and national model for ensuring St. Louis invests in community development and sustains affordable living for all.

This list is intended to compliment

The St. Louis Area Resource Directory

<https://www.startherestl.org>

by helping people locate stable housing resources on the continuum from homelessness to transitional living, affordable rentals, to homeownership.

These resources include food, utility, transportation, and clothing assistance and housing education, entrepreneurship and business development, and mental health.

This list is also intended to help community development organizations provide the opportunity to share where they have need: donations, sponsors, long-term funders, volunteers, and more so that businesses, schools, and other non-profits know how and where they can partner and support one another.

If you are a non-profit or a community development organization of any kind, please add your name to the list. You can list your organization and a short description of your services under “Organization” or you can list your organization and a description of your specific services or name where you have available affordable housing under that category.

You can also scroll to the bottom and add your organization and describe how businesses and people in St. Louis can best support you.

For those in need of assistance, here are some core hotlines and places you can call.
